OREGON CORRECTIONS ENTERPRISES

ESTABLISHED IN 1999 through the passage of Ballot Measure 68, Oregon Corrections Enterprises (OCE) is a semi-independent organization, whose administrator reports to the Director of the Oregon Department of Corrections (DOC). OCE plays an important role in carrying out Ballot Measure 17, the constitutional mandate to engage male and female inmates (further referred to as adults in custody) in meaningful work. By statute, OCE is funded solely through the sales of its products and services.

The mission of OCE, in partnership with the DOC, is to promote public safety by providing adults in custody (AICs) with meaningful work experience in a self-sustaining organization. Working with DOC, OCE seeks partnerships with other agencies and private organizations to provide work and training programs for AICs throughout Oregon that mirror real-world job experiences. OCE plays an important role in implementing DOC's Oregon Accountability Model and in developing positive work ethics.

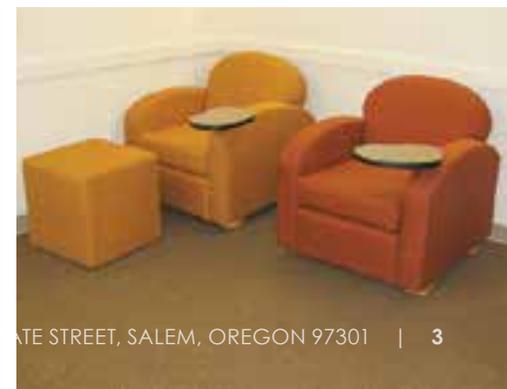

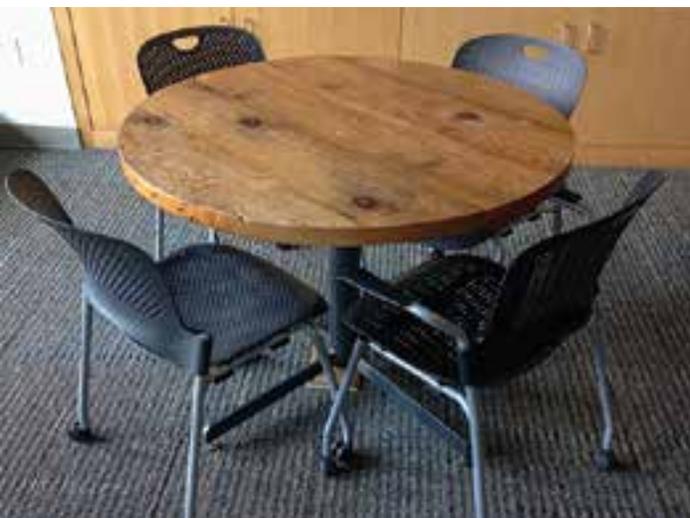

We are committed to providing transferrable work skills and training opportunities for every adult in custody.

WHY BUY FROM OCE

SAVING OREGON TIME & MONEY

While you take advantage of lower cost furniture, without sacrificing quality, you not only gain savings for your agency, but for the state as well.

THE OREGON CONSTITUTION STATES, in part, that "Prison work products or services shall be available to any public agency...and shall be used as much as possible...to support other government operations."

WHY DOES THIS MATTER TO YOU?

If you are a state agency, you are normally required to obtain bids for purchases in excess of ten thousand dollars, up to 20% of your agency's project budget may go to the costly bidding process instead of the product or service you need. Your support of Oregon Corrections Enterprises not only saves your organization valuable time and funds but also supports the constitutional requirement for adults in custody to work, which helps reduce the overall cost of government.

OCE seeks partnerships with other agencies and private organizations to provide work and training programs for AICs that mirror real world job experiences as much as possible. OCE plays an important

role in implementing DOC's Oregon Accountability Model (OAM). Through developing positive work ethics and job skills, OCE assists AICs in transitioning to productive citizens who contribute to society and to their families.

Opportunities arise for OCE to collaborate with private sector businesses. OCE turns down potentially millions in yearly revenue because of the possibility these ventures would compete with private sector businesses or cause workplace displacement. OCE will continue to seek collaborative partnerships while taking measures to avoid competing with the private sector.

THE OCE SALES EXPERIENCE

Personal attention, informed sales staff, and unmatched services make working with Oregon Corrections Enterprises an easy decision.

OUR SALES TEAM PROVIDES the highest level of customer service and a pleasant personal experience for all of our customers. We are not just order takers with a price chart; we represent a mission of service to our communities and are backed by quality products and excellent service from first call to

final acceptance. With a virtually unmatched warranty policy and delivery services that are rare in the industry, we do our part to help you get the most out of your budget. We will work directly with your contractors and architects,

and they may just drop them at the curb. OCE takes a different approach. We have a small, consistent, flat rate for all deliveries, no matter the size of the order, and that isn't where the experience ends. If you have a

and even use the blue prints to generate the quote, determine the elevations for cabinetry, and accurately dimension your custom furnishings. Our skilled CAD team will design and draw custom furnishings for any of our customers at no extra charge. At OCE, we build more than quality furniture, we build true, dependable partnerships.

While our competitors mass produce and warehouse cookie-cutter furniture, OCE builds to order, allowing for customization of dimensions, pulls, wood species, stain color, fabric choice, and more. Your furniture is made specifically for you and features excellent joinery and materials.

Some companies charge thousands to tens of thousands of dollars to deliver your products,

large construction project with a moving target for a delivery date, we can accommodate that. With 50% down, we will secure the materials for large jobs to guarantee material consistency, matched wood grain, fabric colors, and price points. As we complete and prepare your products for shipping, we will store them safely in our temperature-controlled warehouse until your site is ready to receive delivery. At that time, we will walk right on by the curb, into your building, and place and inspect each piece of furniture in its final destination.
