Donna Litchfield *WOU—Planning Office*

Thank you again for always being great to work with! These benches were custom made to our size with a standard fabric. They turned out great and very affordable for the department who purchased them as they have a small budget.

ODOT, La Grande

Our furniture is beautiful, well made, and we are extremely happy with them. Our conference rooms look professional and amazing! Thank you all so much!

PURCHASE ORDER GENERATED

The work begins right away.

MANUFACTURING & QUALITY CONTROL

We use locally sourced, eco-friendly processes and materials, and store the products for you until your site is ready.

DELIVERY & SETUP

Crews bring the pieces directly into each room, set up, and quality-check each product.

ABOUT US

OREGON CORRECTIONS ENTERPRISES

(OCE) is a self-sustaining organization that provides work and training to Oregon's adults in custody (AICs). We are a semi-independent state agency, governed by the Director of the Oregon Department of Corrections, that simultaneously lowers the cost of government and helps to reduce recidivism in the state of Oregon.

The products and services provided by AICs include furniture, fabricated metal products, signage, garments and embroidery, laundry, contact center services, printing, and mail fulfillment. Our staff works with Oregon's AICs on a daily basis, bringing integrity, respect, and a commitment to excellence. Each of our work programs focuses on bridging the gap between incarceration and working on the outside after release. Through their work in OCE businesses, AICs receive

on-the-job training and a chance to develop their confidence and a viable work ethic. This experience is proven to change their outlook on life, helping to better equip them to make a successful transition into our communities, and less likely to repeat criminal behavior.

OCE is committed to achieving successful business collaboration with our clients in tandem with the rehabilitation of Oregon's AICs.

OCE'S GOALS INCLUDE:

- Promoting public safety by providing adults in custody with meaningful work experience
- Providing a high level of customer satisfaction to our partners
- Ongoing financial self-sustainability
- Continuous organizational improvement

REAL-WORLD SKILLS TRAINING

THE INTEGRAL COMPONENT of OCE's mission is our Work Skills Certification Program. Through this training opportunity, we provide qualified adults in custody (AICs) with the skills, confidence, and attitudes needed to enhance their opportunities to re-enter society and find employment upon release.

The Work Skills Certification Program is a twelve-month, industry-specific curriculum, which, when completed, provides AICs with a work history summary and a certificate of completion. Through their daily participation, they learn and improve decision-making, social interaction, teamwork, reliability, and accountability. As closely as possible, the

program strives to duplicate a real-world experience to best prepare AICs for jobs on the outside. Upon release, AICs use their training and certification to assist their job search.

OCE began offering Bureau of Labor and Industries (BOLI) training programs in 2015. These training programs combine a curriculum with a minimum of 2000 hours of hands-on training. Upon completion of all program requirements, those enrolled receive a certificate issued by the U.S. Department of Labor.

- Nationally recognized certificate
- No stigma of training while incarcerated
- Reducing the hurdles faced by those who have served time

DAS BUY DECISION MATRIX

OREGON CORRECTIONS ENTERPRISES is listed as a priority vendor by the Department of Administrative Services (DAS) on the Buy Decision Procurement Matrix.

Considering that you are normally required to obtain bids for purchases in excess of ten thousand dollars, large portions of your agency's project budget may go to the costly bidding process instead of the products or services you need.

Oregon Corrections Enterprises (OCE) provides full-time work and on-the-job training to adults in custody. OCE provides products and services such as furniture, office seating, signs, park equipment, printing services, call centers, and laundry services. An agency must consider products or services from OCE before going out to the open market.
