

OCE POLYCARBONATE SHIELDS AND PANELS

PLANNING FOR A SAFE RETURN

PREPARING FOR THE NEW NORMAL can be daunting, and OCE is ready to assist you. As we learn more about preventing the spread of COVID-19, standard precautions are not only helpful, but often required. Prepare your office, business, or public gathering place for the return of workers and guests.

OCE has an array of products to remind people at your location of good safety practices and to protect them when they may forget. From Wellness and Precautionary Signage to floor markers and safety posters, our Print Shop and Sign Shop have the visual tools you need to keep good health habits at the forefront of everyone's minds. With social distancing becoming a new norm, OCE has polycarbonate shields, panels, and high-sided Privacy seating that will provide an added barrier of protection. Give your workers and guests peace of mind for a safe and effective return and the ability to shop, work, and play confidently.
