

OCE

07-20-20

I'm writing to let everybody know how much I appreciate the opportunity I have been given. I will admit the job is stressful at times and some time off would be nice with better pay. but to be truthfull that does not compare to the experience and on the job training I've received and learned. I have always had a hard time talking to people. This job has given me confidence in myself and I believe I can be successful with the training and opportunity I've been given. Department of corrections has very little programs for offenders to transition back into society with a set skill I appreciate it and I 100% believe in the program of OCE.

Thank you

Alberto
